

## Inclined Infrared Deck-Mounted Tap

**contactless operation  
intergrating  
style and hygiene  
together as one**

### Introduction

Delivering water without contact with the tap is an ideal solution where hygiene is paramount, such as public toilets and washrooms. The users presence is detected by an Infrared sensor which controls a solenoid valve to turn on a timed flow of water. This tap has been designed for use with an approved Intamix thermostatic mixing valve.

IR500CP
