

Timed Flow - Thermostatic Non Concussive Basin Mounted Tap with Adjustable Temperature Control

Introduction

The new thermostatic non-concussive basin mixer tap, with adjustable temperature control from Inta. This unique and patented solution to safe hand hygiene in washrooms, features Inta's proven anti scald thermostatic technology at the same time as operating as a water economy device by shutting the flow of water off after a set period of time.

- **"Unique"** Thermostatic & Time Flow Control Combined in One Unit
- Anti-Scald Failsafe Technology
- TMV3 Approved
- Timed Flow Control Automatically Closes the Tap
- Temperature Adjustable

Product Range

Description	Code
Thermostatic timed flow non-concussive basin mounted mixer tap with temperature adjustment	NC250CP

FREQUENTLY USED APPLICATIONS

Technical Specification

Max Inlet Pressure	5 Bar
Min Inlet Pressure	1 Bar
Timed Flow At 1 Bar	15 seconds \pm 5 seconds
Maximum Inlet Temperature	65°C
Factory Set Temperature	41°C
