

AFTERCARE INSTRUCTIONS

Your fitting has a high quality finish and should be treated with care to preserve the visible surfaces.

All surface finishes will wear if not cleaned correctly, the only safe way to clean your mixer is to wipe with a soft damp cloth. Stains can be removed using washing up liquid. All bath cleaning powders and liquids will damage the surface of your fitting, even the non-scratch cleaners. **NOTE: Never use abrasive detergents or disinfectants or those containing alcohol, hydrochloric acid or phosphoric acid.**

Bristan recommend E-Cloth for cleaning all of our bathroom & kitchen products. Using just water, E-cloth gives a smear free, deep clean by breaking up and holding dirt, which normal cloths leave behind. Order through your Bristan stockist. (ORDER CODE: ECLOTH)

GUARANTEE

All products are manufactured to the highest standards and a 5 year guarantee covers any defect in manufacture.

NOTE: The 5-year guarantee on the cartridge is invalidated if damaged by any waterborne debris.

NOTE: All products must have access for servicing or replacement during the life of the product.

In the interests of continuous product development we reserve the right to alter specification as necessary

BRISTAN

Prism Deck Mounted Bath Shower Mixer

Fitting Instructions & Contents List

Before starting any installation project please consider:

Prior to drilling into walls, check there are no hidden electrical wires, cables or water supply pipes with the aid of an electronic detector. If you use power tools do not forget:

- Wear eye protection
- Unplug equipment after use

Please keep these instructions for future reference and request of replacement part

WATER PRESSURE

This mixer is suitable for use at all supply pressures. However for optimum use both the hot and cold supplies should be reasonably balanced.

If the fitting is installed at low pressure (tank fed), then the minimum distance from the highest installed position of the shower head to the underside of the cold tank should be 1 metre to ensure adequate shower performance.

This mixer should be installed in compliance with the Water Regulations. Where the supplies are unbalanced, i.e. hot water from cylinder tank / cold from the mains, approved check valves must be fitted in the supply pipes. For further details contact your Local Water Authority.

CONTENTS

Grub Screw	(2)
Diverter Assembly	(3,6 & 11)
Backnut & Washer	(4 & 15)
Aerator	(5)
Cartridges Hot/Cold	(9 & 10)

Before starting any installation project please consider:

Prior to drilling into walls, check there are no hidden electrical wires, cables or water supply pipes with the aid of an electronic detector. If you use power tools do not forget:

- Wear eye protection
- Unplug equipment after use

INSTALLATION

1. Identify all components and check for completeness, particularly before arranging installation.
2. Fit the mixer body to the bath using the washer and backnuts, connect the hot and cold supplies.
3. Fit the hose to the mixer and handset using the small sealing washers.
4. Fix the wall brackets in place, ensuring the handset will reach.
5. Fully open the mixer in the mid position, letting it run for a few minutes to check all joints and connections for leaks.
6. Operate the mixer in both bath and shower mode.
7. To switch from bath to shower mode, pull the diverter knob up. After use, the mixer reverts to the bath filling mode.

N.B. Please write the name and product code of your fitting in the spaces provided overleaf. This will ensure a speedier service if you should need to phone the help line.

MAINTENANCE

If the fitting begins to drip:

1. Turn off the water supply
2. Unscrew handle lever, then loosen grub screw with a 2.5mm hexagon key and pull off head.
3. Remove cartridge.
4. Carefully clean seating, rubber washer and ceramic disc.
5. Replace valve and head and turn on the water supply.
6. Contact our helpline if problem persists.

PLEASE NOTE:

In the unlikely event you find a part missing, please contact our Customer Service helpline on **0844 701 6273** for immediate dispatch of part
